

Terrific teams

Collaboration and synergy produces greater results than the sum of individual efforts. This pathway will assist you in discovering the benefits of working together in teams to enhance productivity. Understand how to 'manage up' when required, how to navigate conflict when it arises and how to succeed as a collective. We explore various factors that can impact collaborative teams, how to get others to help you and discover how initiative is the secret in how teams achieve synergistic results.

To help individuals and workplaces upskill and expand their capabilities to thrive in this environment, the Suncorp Learning Campus provides online access to thousands of training resources, sourced from the best content providers in the world.

Knowing what you want to achieve is the easy bit, but how do you engage and support others to have everyone working in a supportive way to achieve set objectives? In these modules we will explore:

- How teams work
- How teams succeed
- Why teams fail
- Ways to improve your teams productivity and motivation
- How to bind people together to form teams

Understand what it takes to make and be part of a high-performing team. With these skills you will have better results, more motivated individuals and team members and less obstacles.

Managing Teams

by Me Learning
(30 minutes)

Course overview: This course demonstrates areas where managers can step up when managing teams and provides practical advice on how to do this. Both established and new managers will learn how to delegate better and how to motivate their team to achieve great things.

Working in Teams

by Micro Learn
(15 minutes)

Course overview: This module looks at the different types of teams, both short-term and long-term. For the best chance of success teams should set clear, defined objectives and this module explores the SMART method. The key element to a team's success is motivation; here we look at different types of motivation and how you can motivate your team to achieve its objectives.

Personal Development - Working in Teams

by Jenison Elearning

This course does a deep dive into the counter-intuitive art and science of breakthrough collaboration—from partnerships to giant enterprises.

Team Building: Communication Traits of Effective Teams

by Chart Learning
(9 minutes)

Course overview: The most important communication behavior is being able to communicate in an open, safe, and supportive culture. High performance teams use a wide variety of effective communication skills with the bottom line in being understood. We will show you how to practice the three R's - be reliable, responsible, and reasonable.

10 Minute High Performing Teams

by Learning Planet
(10 minutes)

Course overview: This 10 minute video explains leadership styles in situational leadership and the 4 team stages. It provides tips on what to do in each situation, how to adapt and how to move your team towards being a high performing team.

Team Building: Conflict Resolution in Teams

by Chart Learning
(11 minutes)

Course overview: All conflicts have one bottom-line trigger—differences in the value of what's important. Beliefs define values by an idea, principle, or opinion that we judge to be true. Understand how to resolve conflict around issues and situations, not people. Discover the three-stage process to resolve team conflict.
